CAMPUS MASTER PLAN UPDATE
Focus Group - Parking and Transportation

14 JANUARY 2016
Transportation Priorities

goals:

• Proposed sequence of roadway improvements and related projects

• Key aspects of implementing the bicycle plan

• Couldn’t find delivery strategy within master plan

• Campus edge conditions and priorities

• Existing garages and any potential refinements (ie. Queuing)

• New garages locations and capacities

• Surface parking transformations, adjustments, etc.

• All alternate transportation elements:
  • Shuttle
  • Ride share
  • Regional
  • Car share
Planning Goals for Transportation

- Define goals that support the pedestrian environment
- Integrating the in-process Mobility Plan
- Expanding conversation about transportation types
- Coordinating populations to better use all transportation infrastructure
- Coordinating programs to better use all transportation infrastructure
- Anticipating Regional opportunities
- Framework integration
- Potential Design Guidelines and Protocols
