CAMPUS MASTER PLAN UPDATE
Focus Group - Research Park

11 February 2016
Goals and Advice

- Densify the area, specifically at the roadway edges
- Building footprints should be more urban in order to densify the area
- Consolidate surface parking into shared structured parking
- Expansion of programmatic elements – Innovation District
- Support and expand cross- and inter-disciplinary efforts
- Research Park Building Guidelines?
- Define connections into campus with pedestrian and bicycle routes
- Extend and link greenspace network from East Campus and West Campus into Research Park
- Enhance and embrace the natural environment within the Research Park area
